

WHY EARLY EDUCATION MATTERS:

MANY CHILDREN

from all socioeconomic backgrounds enter Kindergarten classrooms unprepared.

34
PERCENT

of Virginia's children enter Kindergarten unprepared.

90%

of a child's brain is developed before the age of five.

Children not reading in the 3rd grade are

FOUR TIMES

more likely not to graduate from high school.

CHILDREN WHO enter Kindergarten behind their peers rarely catch up; instead the achievement and readiness gap widens.

BY THE AGE OF THREE a child's vocabulary can predict third grade reading achievement.
